

## EHX DRM-16 BB KIT MIDI Map

36 - Kick drum, 6 samples, 1 velocity

38 - Snare, 3 samples, 1 velocity

39 - Clap, 4 samples, 2 velocities, 0-75, 76-127

40 - Alt Snare (sound clap-like, wavefore show 3 quick peaks), 2 samples, 1 velocity

42 - Closed Hi-Hat, 10 Samples, 3 velocities, 0-40, 41-80, 81-127

45 - Space (phaser, ray gun), 3 samples, 1 velocity

51 - Ride Cymbal, 3 samples, 1 velocity

The samples in this kit come from a website that archives sounds of older drum machines, Samples.KB6.DE.

I have no way of knowing how accurate they are to the original hardware, or whether my interpretation of the sounds matches what EHX called them. In this kit, the samples were labeled BD, CLAP, HH, SD, CYM and SPAC. I have taken those to mean Bass Drum, Clap, Hit Hat, Snare Drum, Cymbal and Space. Feel free to arrange the kit, if my interpretations do not match yours.
