and the apes climbed down from the trees

**Am7**

**Baug7b9**

and grew tall and they started talking

**Em9**

And the stars fell out of the sky

**Em9**

and my tears rolled into the ocean

**Cmaj7**

now i'm looking for a reason why

**Am7**

**Baug7b9**

you even set my world into motion

[Chorus]

**Em9**

Cause if you're not really here

**Em9**  
then the stars don't even matter  
**Cmaj7**  
now i'm filled to the top with fear  
**Am7**                    **Baug7b9**  
but it's all just a bunch of matter  
**Em9**  
Cause if you're not really here  
**Em9**  
then I don't want to be either  
**Cmaj7**  
I wanna be next to you

[Verse]

**Em9**  
i looked up into the night sky  
**Em9**  
and see a thousand eyes staring back  
**Cmaj7**  
and all around these golden beacons  
**Am7**                    **Baug7b9**  
I see nothing but black

**Em9**

I feel a way of something beyond them

**Em9**

i don't see what i can feel

**Cmaj7**

if vision is the only validation

**Am7**

**Baug7b9**

then most of my life isn't real

[Chorus]

**Em9**

Cause if you're not really here

**Em9**

then the stars don't even matter

**Cmaj7**

now i'm filled to the top with fear

**Am7**

**Baug7b9**

but it's all just a bunch of matter

**Em9**

Cause if you're not really here

**Em9**

then I don't want to be either

I wanna be next to you
