[Verse 1]

C#m E  
We're waiting every night  
F#m C#m  
To finally roam and invite  
F#m C#m  
Newcomers to play with us  
F#m G#7 C#m  
For many years, we've been all alone  
E  
We're forced to be still and play  
F#m C#m  
The same songs we've known since that day  
F#m C#m  
An impostor took our life away  
F#m G#7  
Now, we're stuck here to decay

[Pre-Chorus]

C#m E  
Please let us get in  
A E  
Don't lock us away We're not like what you're thinking  
C#m  
F#m A7/G  
We're poor little souls  
Who have lost all control  
G#  
And we're forced here to take that role!  
C#m E  
We've been all alone  
A E C#m  
Stuck in our little zone since nineteen eighty seven  
F#m A7/G  
Join us, be our friend or just be stuck and defend

**G#**

After all, you only got

**C#m E**

Five Nights at Freddy's

[Chorus]

Is this where you wanna be?
