

Stranger
Kris Kristofferson

INTRO: **G**

#1.

G **C**
Maybe she was smilin' in the mirror.
D **G**
Maybe I was too, cause I was stoned.
G **C**
Singin' every sad song on the juke-box
G **Am7** **C**
one more time.
D **G**
Honey, they were hittin' close to home.

#2.

G
And I said, maybe this'll make you think
C **D**
I'm crazy..honey, don't feel lonesome if
G
you do.
G **C**
But if you wanna make a young man happy
G **Am7** **D**
one more time, I'd sure like to spend the
G
night with you.

CHORUS:

G **Gm** **G**
And she said, stranger, shut out the light
C **D**
and lead me..somewhere, shut out the shadows,
G
too.
G
And while we lay there, makin' believe you
C **D** **G**
love me..stranger, could I believe in you?

INTERLUDE: **G**

#3.

G **C** **D**
Maybe you got all you got together, maybe
G
you keep rollin' like a stone.
G **C** **G**
Maybe some old lonesome song'll take you by
Am7 **C** **D** **G**
sur..prise and leave you just a little more alone.

CHORUS:

G **Gm** **G**
Singing, stranger, shut out the light
C **D**
and lead me..somewhere, shut out the shadows,
G
too.
G
And while we lay there, makin' believe you
C **D** **G**
love me..stranger, could I believe in you?

OUTRO:

G **Gm** **G**
Keep singing, stranger, shut out the light
C **D**
and lead me..somewhere, shut out the shadows,
G
too.
G
And while we lay there, makin' believe you
C **D** **G**
love me..stranger, could I believe in you?..(Fade.)
