If you find yourself needing some special instruments, I recommended replacing 33 or 34. Depending on how this kit is used, and what instrument is being added, 39, 56 and 59 are also open to replacement.

Piano is a Logic Pro X Piano. I believe I used the Steinway Studio.

Piano C1- F#4 - Midi 60 through 102

Harmonica is the very nice Harmonica from Sonivox.

Harmonica G3 - G5 - Midi 103 through 127
