You told me that you wish I was somebody you never met

I kiss your lips

          B   C#   Ebm
I can't remember everything we said but we said it all

You told me that you wish I was somebody you never met
          B               C#         Ebm
But baby, baby somethin's tellin' me this ain't over yet

No way it was our last night

[Verse 2]

  Ebm
I   see your tail lights in the dust
   B            C#
You call your momma, I call your bluff
      Ebm
In the middle of the night, pull it right back up
    B     C#          Ebm
Yeah my, my friends say let her go
                B
Your friends say what the hell
        C#          Ebm
I wouldn't trade your kind of love for nothin' else

[Chorus]

      B      C#      Ebm
Oh baby, last night we let the liquor talk
          B        C#        Ebm
I can't remember everything we said but we said it all
          B        C#        Ebm
You told me that you wish I was somebody you never met
          B        C#        Ebm
But baby, baby somethin's tellin' me this ain't over yet
          B     C#        Ebm
No way it was our last night, we said we'd had enough
          B        C#        Ebm
I canât remember everything we said but we said too much
          B           C#        Ebm
I know you packed your shit and slammed the door right before you left
```

```
        B                C#              Ebm

No way it was our last night
